Career and Placement Cell

Career and Placement Cell (CnP Cell) in IIT Mandi helps students with their careers.

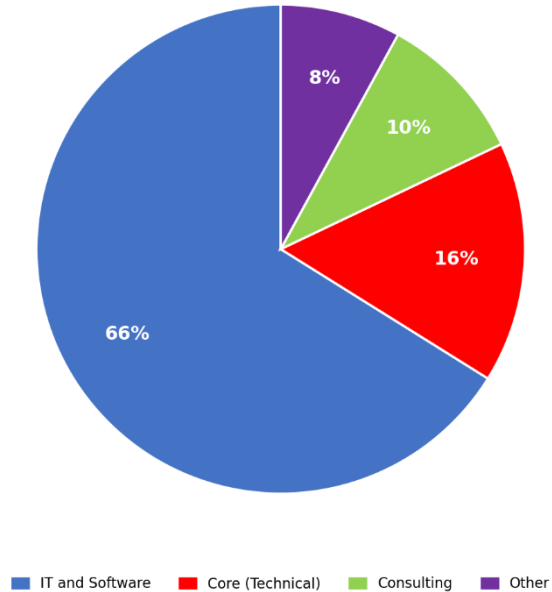

It does so in two ways:

1. The first is by spreading awareness among students about the plethora of fields that exist in the professional world and helping them prepare for the fields of their choice. For this purpose, CnP cell organizes career and guidance sessions, workshops, and so on throughout the year.
2. The second is by connecting the institute with the industry and maintaining a strong relationship between the two. This is done by inviting companies to the campus to hire interns and full-time employees. The CnP cell organizes campus internship and placement drives every year, in which companies from various domains participate and recruit interns and employees from among the supremely talented community of IIT Mandi.

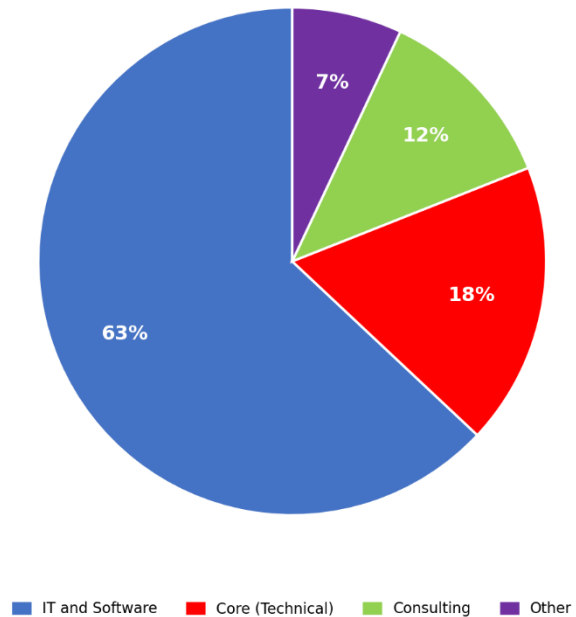

This report presents a brief overview of the internship and placement drives organized by the CnP cell over the last few years, starting from the academic year 2016-17. The statistics are presented in the form of tables and graphs.

Year-wise Internship Statistics

For students of the Bachelor of Technology program at IIT Mandi, doing an internship is mandatory, and so all B.Tech students do internships. Career and Placement Cell invites companies to hire interns from IIT Mandi. Internship season comes around every year, and a large number of students get their internships through the campus drive, even as there are still students who prefer to apply on their own.

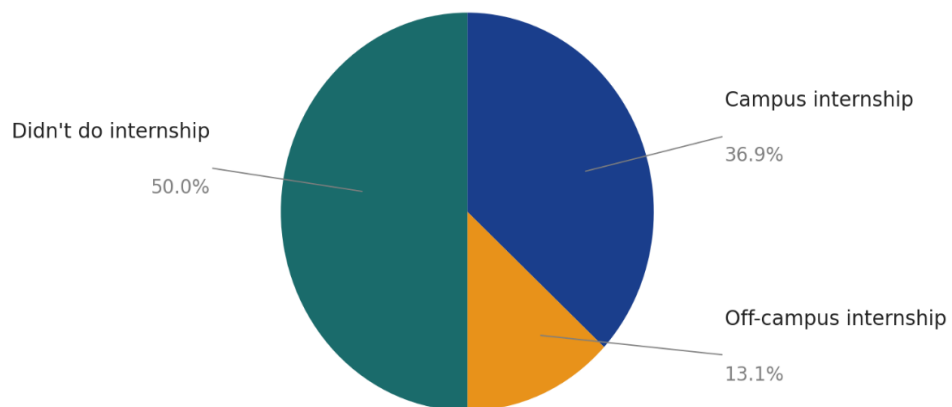

Some well-known companies that have visited IIT Mandi for hiring internship drives include Google, Schrodinger, Walmart, Uber, TI, Flipkart, Indeed, Sprinklr, Microsoft, Amazon, Adobe, Samsung, Siemens, Intel, AMD, etc.

Note: Because of the COVID-19 situation, the internship was made optional for B.Tech 2017-21 and 2018-22 batches.
